EDUCATION

- **California State University, Dominguez Hills** Carson, CA
Bachelor of Science in Computer Science Aug 2022 – Dec 2025
- **Los Angeles Harbor College** Los Angeles, CA
Associate of Arts in Math and Natural Sciences Aug 2019 – Jun 2021

TECHNICAL SKILLS

- **Programming:** Advanced Python (Automation, Data Analysis), Full-Stack JavaScript (React, Node.js), Bash, Java, C
- **Integration & Test:** SIT, HITL, Hardware-Software Validation, Root Cause Analysis (RCA), Non-Conformance Reporting (NCR), ATP/QTP Authoring, Test Documentation
- **Tools & Platforms:** Linux/Unix, Git/GitHub (CI/CD), Docker, Jira (Agile/Tracking), PostgreSQL, MySQL, Web Servers
- **Languages:** Native English and Spanish fluency

EXPERIENCE

- **Kyocera Document Solutions Development America** Gardena, CA
Test Engineer Apr 2025 – Present
 - **Performance Metrics:** Promoted after surpassing metrics by completing 300% more tasks than the team average; reduced Jira backlog from 200 to 30 tickets within one year for the Bluefin and Hermes projects.
 - **Workflow Optimization:** Streamlined hybrid testing processes using web servers to simulate test cases, accelerating execution speed by 10x.
 - **Compliance & Traceability:** Maintained detailed testing documentation and reports to support product traceability, compliance audits, and continuous improvement initiatives.
- **Kyocera Document Solutions Development America** Gardena, CA
Associate Test Software Engineer Nov 2019 – Apr 2025
 - **Automation & HITL:** Developed and automated test suites for hardware-software systems using Python and JavaScript, ensuring rapid identification of firmware and software issues.
 - **Failure Analysis:** Identified root causes of test incidents and implemented effective corrective actions; validated these actions to prevent future regression.
 - **Systems Integration:** Contributed to the development and testing of complex systems including the TASKalfa Pro 15000c production printer and Kyocera Print Job Manager.
 - **Documentation:** Authored comprehensive test plans and procedures based on product requirements, ensuring accurate and reproducible results across the team.

PROJECTS

- **Smart Calorie Tracker:** Full-stack health application built with Django and PostgreSQL. Features real-time API food logging (USDA/OpenFoodFacts) and data visualization via Chart.js. Hosted on Render with a production-ready database.
- **Task Management API:** Architected a robust REST API and React dashboard with secure JWT authentication. Designed complex relational schemas in PostgreSQL to handle multi-user task management and status persistence.
- **Desktop Calorie Tool:** Original hardware-integrated prototype developed in Python and Tkinter, utilizing SQLite for local data persistence and nutritional metric tracking.
- **E-Market Full-Stack Platform:** Developed a complete e-commerce solution using Node.js, Express, and MySQL. Implemented secure user authentication with bcrypt, a dynamic Admin Dashboard for inventory management, and relational database schemas for cart and order tracking.

CERTIFICATIONS

- **Google IT Support Professional Certificate:** Coursera / Google
